FIRST HYDRO COMPANY SPONSORS SNOWDONIA'S FAMOUS FELL RACE

First Hydro Company – which operates Snowdonia's famous Electric Mountain and runs the power stations at Dinorwig and Ffestiniog – has this year sponsored the Welsh 1000 Metres Peaks Race.

The Gorphwysfa Club, a mountaineering club based in Snowdonia, were extremely grateful for the help provided to the race; it ensured that the organisers could hire specialist communication equipment to increase the safety factor for competitors. Fell-running is one of the few really amateur sporting events in the UK. Funding and sponsorship are crucial to ensure standards are maintained. This sponsorship by First Hydro Company is much appreciated by our voluntary team of organisers who work so hard to ensure the Welsh 1000m remains a vibrant part of the North Wales and UK fell-running scene. Simon Bateman, Chairman of First Hydro's Sponsorships and Donations Committee, says, "First Hydro is delighted to be sponsoring this year's Welsh 1000 Metres Peaks Race. It is an important event attracting hundreds of competitors and visitors to the area, and we are pleased to be able to provide support to ensure its success."
